**Subject:** RE: Hi Res?

The HRMS is still being repaired, I expect that it will be finished this week. I expect that they will not leave ( for Good) until we have demonstrated the instrument is functioning. Once that is done I expect to be able to get a project a week out the door. Assuming this message means run Radford first of your samples. Best case would be end of next week.

Thanks,

**Subject:** Hi Res?

Dennis,

Hope you're feeling better?

What's the status of the HRMS?

When can I expect the Radford D/F sample data?

Thanks!

B
